KEY FEATURES OF
PARTNERSHIPS

GETTING READY
APPROACH

OUTCOMES AND
IMPLICATIONS

PARTNERSHIP

Parent Involvement	Parent Partnership
<p>A “<i>one-size fits all</i>” families approach is used to promote child learning.</p>	<p>An <i>individualized approach</i> is used to promote child learning considering unique family strengths, culture, priorities, and composition.</p>
<ul style="list-style-type: none"> • Communication is <i>generally one-direction</i>. • <i>Educators are the primary decision-makers</i> about the priorities for the child’s learning. • <i>Educators determine the role of parents</i> in the child’s learning. 	<ul style="list-style-type: none"> • Communication is <i>bi-directional</i> and <i>consistent</i>. • <i>Parents and educators</i> make <i>mutual decisions</i> about priorities for the child’s learning. • <i>Parents and educators mutually determine their roles</i> in the child’s learning.

HOW?

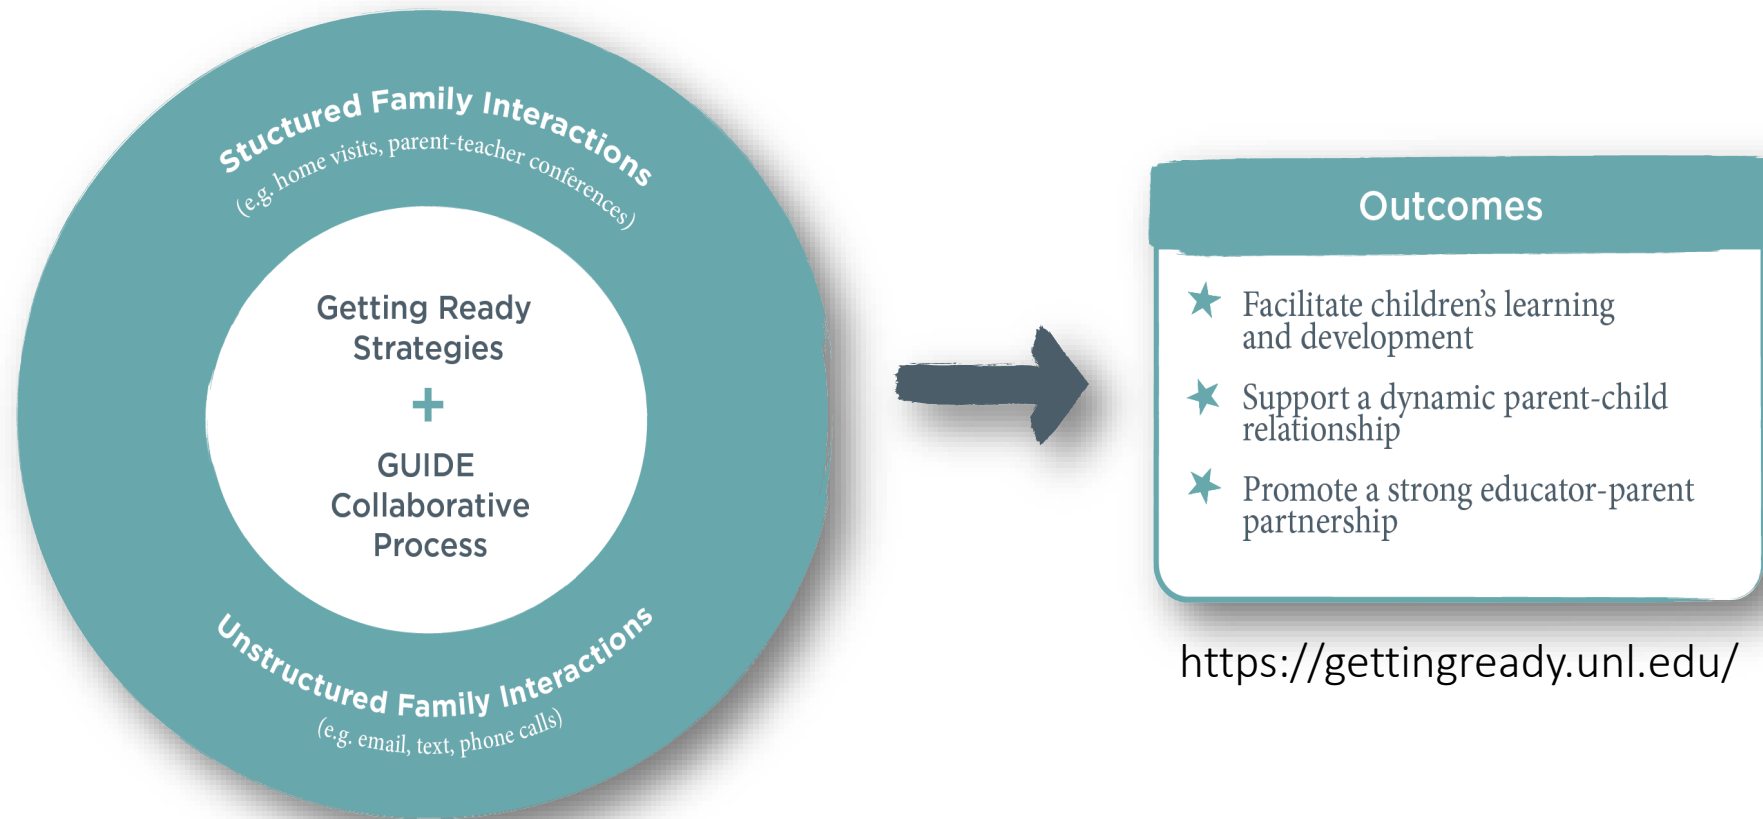

Promotes children's learning and development by ***strengthening relationships*** among families and educators in home- and center-based early childhood settings serving children birth – five years.

GettingReady Approach

Engaging Parents & Strengthening Partnerships

Outcomes

GettingReady

- Children's Learning & Development
- Parent- Child Relationship
- Parent-Educator Partnership

Children's Learning & Development

*Preschoolers who received the Getting Ready program were **better than 75% of their peers** in handling their emotions, managing their behavior and developing sustaining relationships.*

$$\gamma=1.15, t(543)=2.26, p=.02, \beta=.08$$

Children's Learning & Development

Children who were part of Getting Ready scored better than 80% of their peers in language and early reading skills.

TROLL Language Use significantly different from that of the control group, $\eta^2=0.014$, $t(148)=2.97$, $p=.004$ $d=1.11$.

TROLL Reading scores significantly different from that of the control group, $\eta^2=0.015$, $t(138)=3.62$, $p=.000$, $d=1.25$.

Parent – Child Relationships

Parents in Getting Ready *interacted with their children using a greater degree of warmth and sensitivity* than did their counterparts in the control condition, $\gamma = 0.02$, $t(94) = 2.54$, $p < .05$, $d = 0.83$.

Parents in Getting Ready *demonstrated greater quality in behaviors that supported their children's autonomy*, $\gamma = 0.02$, $t(106) = 2.06$, $p < .05$, $d = 0.67$.

Parent-Educator Partnership

94%

of educators reported improvements in their **partnerships with families.**

“I communicate more with the parents and parents feel more comfortable communicating with me.”

After Getting Ready, educators felt *more prepared* to interact with parents.

*“I have **more conversations** with parents about **improvements made or struggles.**”*

Conclusions

- Getting Ready is an evidence-based family engagement approach comprised of eight strategies and a collaborative structure for use by educators during family contacts in home visiting, family child care homes and center-based programs to promote partnerships with families.
- Data show positive effects on children's development and learning, parent-child relationships, and partnerships with families.
- Training and dedicated resources towards promoting parent engagement is essential.
 - *Administrative policy must allow for planning time and sufficient meeting time with families (e.g., conferences and home visits) to facilitate partnerships.*
- Professional development and coaching are essential.

Thank you!
